

## **AVERINE'S COLOURS OF NATURE FOR AUTUMN/WINTER 2005**

*Averine Paris Skincare Cosmetics Ushers In the Moods of the Season with  
Natural, Earthy Colours.*

**Singapore, 20 June 2005** – Fresh and natural is always a winning look and what more appropriate time to take on the natural look than in the season of autumn and winter. Let the elements of nature and its colours be your playground with **Averine's Colours of Nature for Autumn/Winter** to achieve looks that are natural and stunningly gorgeous in the day and glamorously sexy at night. This season is about using the right combination of nature's colours with a touch of shimmer to highlight the natural beauty in you, making it so convenient and addictive that you can't go wrong for any occasion.

Averine puts you in touch with nature this season, making its colours work for you. Taking its colour cues from nature itself – gorgeous greens, cool corals, azure blues – Averine sets aside the plain pastels, moving the colour palette into warmer-looking shades that bring out your natural beauty.

For this season, it's all in the eyes, so start off with **Averine's Eyeshadow Duo – Envy** which comes in this season's most desirable hues of warm gold and lightly shimmered green to emulate the mood of nature.

Alternatively, you could also accentuate your eyes with **Averine's Eyeshadow Single - Pale Gold**, a radiant soft sand colour, paying tribute to the glow of an autumn / winter sunrise and achieving that perfect "natural look". Together with another **Averine Eyeshadow Single - Sable**, a captivating earthy brown, both combinations give the "nude" effect that is the talk of the season. So natural yet smoulderingly sensual, it gives a feeling of makeup without being made up.

For the cheeks, blend in **Averine's Natural Glow Blush - Peach Colour** that gives wonderful healthy glowing cheeks just like the way Mother Nature intended them to

be. Finish off finally with **Averine's High Shine Lip Laque** in **Dewdrop** that gives you instant poutier-looking luscious lips.

Looking natural the Averine way does not mean plain and dull. Averine shows you how easy it is to be creative with colours of nature this autumn winter season. So go ahead and create your Averine natural beauty and bring out the goddess in you today!

*Averine Skincare Cosmetics is skincare beyond makeup. Formulated with botanical extracts, vitamins and containing non-synthetic ingredients, Averine was formulated to enhance, protect and care for skin to achieve perfect balance in beauty and skin care. Today, with the vast amount of cosmetics available in the market, and the emphasis placed on cosmetics colours than on ingredients, it is no wonder consumers suffer from trigger factors of skin sensitivity or acne. Averine not only nurtures the skin, but treats dermatological upsets. Long-term usage of its products improves skin condition and promotes optimum skin health. Averine truly encapsulates the best of skin care and makeup in one.*
